VoiceWorks is built for small and medium sized businesses- it's compact in size and is easy to install, maintain, and use.

VoiceWorks offers the sophisticated features found only on high-end, more expensive systems.

VoiceWorks improves employee productivity and customer satisfaction.

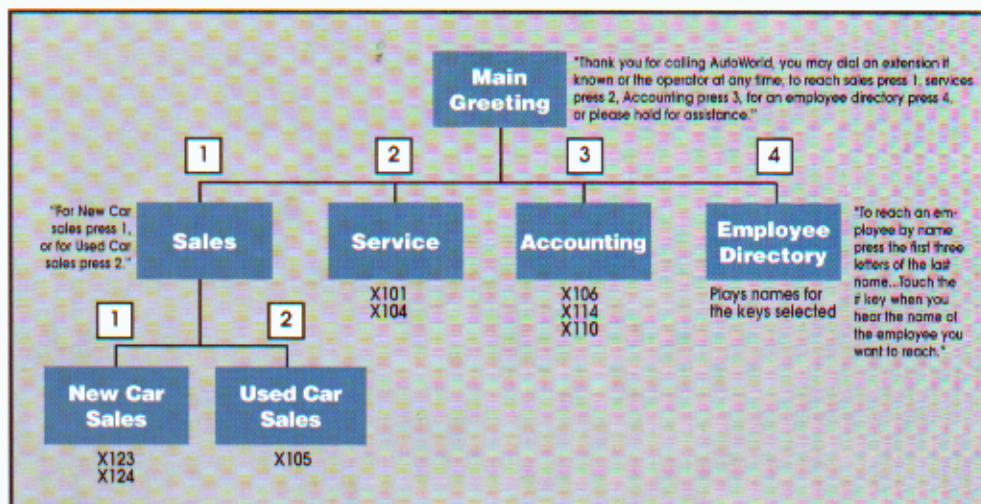

VoiceWorks reduces miscommunication by providing clear, accurate, and complete messages.

Mailbox users are guided by detailed voice prompts or can follow the handy wallet card of short-cut keystroke commands.

Auto Attendant Features

- Customized Answering of CO Lines
- 6 Menu Levels
- 40 Audiotex Branches
- 16 Extensions/Groups per Route
- Pre-recorded System Prompts
- Automatic Night Greeting (By Day of Week and Time of Day)
- Separate Greetings by Port
- Programmable Blind/Supervised
- Uniform Call Distribution Groups
- Alphabetic Directory by Name
- Departmental Directory by Name
- Operator Translation
- Operator Back-up
- Automatic Reroute Busy/No Answer
- Information Distribution
- Extension Privacy
- Automatic FAX Detection
- Automatic Disconnect Transfer

The VoiceWorks built in auto attendant provides for extensive menu choices and routing possibilities. The system provides employee directories that can be presented to the caller by name and/or by department.

During call processing, if the called party is unavailable, the caller can be routed to other specified extensions, given further menu choices, or routed directly to the user's mailbox.
